Bogor, Jawa Barat

I am a front-end developer with a background in information technology from PESAT Vocational School. I have practical experience developing websites and Android applications. I am proficient in PHP, TypeScript, and Python, as well as the Laravel, React, and Django frameworks. I have experience designing responsive interfaces with Tailwind CSS and Bootstrap. In addition to my technical expertise, I have strong public speaking skills and can work independently or collaboratively. I am committed to being accountable for all assigned tasks.
